

RECUPERATOR TUBE BUNDLES

Qual-Fab, Inc. manufactures recuperators in any configuration to OEM or customer specifications. We offer a full range of stainless and high nickel alloy materials used in the fabrication of tubes to improve service life.

THE QUALFAB ADVANTAGE:

- Experienced in the manufacture of multiple recuperator designs
- Quality workmanship – Our certified welders ensure that fabrications are built to top quality standards, and our Level II inspection team assures that our products are built to your exact specifications
- Knowledgeable & proficient in all types of stainless and exotic high nickel alloy materials
- Many satisfied customers ranging from Fortune 500 to small start-up companies
- Qual-Fab offers technical assistance, realistic deliveries, and highly competitive pricing
- Materials are carefully selected based on your specific application and service conditions, and certified by industry leaders
- Recuperator rebuild services are available to ensure the most cost effective and efficient options for our customers
- Scrap credits are available for old recuperators
