

CATALYST BASKETS

Qual-Fab manufactures Catalyst Baskets in many sizes, arrangements and materials. Whether it be a Weatherly, Grand Paroisse, Oschatz, Uhde or other Convertor, we can give you the best design and quality at a reasonable cost.

Qual-Fab has built a reputation as a leader in high-nickel alloy and stainless fabrications. Qual-Fab products are manufactured precisely to customer specifications to perform in the most demanding high temperature and corrosive application.

The Qual-Fab advantage:

- Qual-fab has the ability to assist with your design or retrofit of your existing basket
- Our people have the engineering and fabrication expertise to assist with problem solving and design changes
- Choose from a variety of alloys including the Inconel family of nickel alloys and stainless steels and exotics such as 800H and Haynes 230™
- We can produce baskets in all shapes and configurations
- Q-Hex Mesh and Truss Grid designs
- Grid designs that allow for expansion
- Segmented weighted rings to improve the gauze seal
- Conical shells for improved strength
- All product is manufactured to customer specifications
- Materials are supplied with MTR's and verified with PMI for complete traceability
- We produce a top quality product to the most exacting standards at a reasonable and competitive cost
- When you need high quality catalyst baskets, count on Qual-Fab

THE EXPERTS IN HIGH-NICKEL ALLOY AND STAINLESS FABRICATIONS
